

AMFOR 6 inch spiral UF membranes

AMFOR six inch spiral element designed for use with anodic and cathodic electrocoat paints. Pre-fabricated element housings are available from stock.

AMFOR model numbers: EDUF-5640-HE, EDUF-5651.5

Nominal 6 inch diameter full fit element with two integral anti-telescoping devices (one each end).

Dimensions

Model	Dimensions—inch(mm)		
	A	B	C
EDUF-5640-HE	40(1016)	5.5(140)	1.285(33)
EDUF-5651.5	51.5(1305)	5.5(140)	1.285(33)

Permeate capacities

MODEL	PAINT TYPE	OUTPUT/GPM
EDUF-5640-HE	CATHODIC / ANODIC	1.5 / 1.9
EDUF-5651.5	CATHODIC / ANODIC	1.5 / 1.9

Recommended design parameters

Paint feed rate	Element inlet pressure	Pressure drop/element
42gpm	50psi	25psi

Element limits

Ph range.....	1-11
Maximum element inlet pressure:	80psi
Minimum element inlet pressure:	30psi
Maximum pressure drop/element:	25psi
Minimum pressure drop/element:	15psi
